

Jointing Systems

Quality jointing systems are critical when using cavity membrane systems. The Wykamol Group is proud to have sourced the highest quality jointing tapes and ropes within the waterproofing industry.

All our tapes and ropes are covered by our extensive BBA accreditation and all the materials are of the highest quality using HP 600 grade bitumen.

All the products within the jointing range have undergone extensive water testing capabilities and are suitable for

use with our high-density polyethylene membranes.

When specifying these products you can rest assured that each of these tapes will last and remain flexible throughout the life of the waterproofing project.

Tape

A high quality butyl double sided tape, 28mm wide. This tape is used in the installation of Wykamol cavity drain membranes and is used to tape 2 sheets of membrane together on walls or floors. Easy to use and very high quality HP600 grade bitumen makes this a long term solution for all membrane work.

Size: 28mm wide x 22 meters long.
